

## Bio-Quercetin

*Highly-absorbable quercetin  
for cellular & immune support*

Item #02302 • 30 vegetarian capsules

Quercetin is a bioflavonoid that supports cellular health, endothelial health, healthy immune function, and more. Our new Bio-Quercetin supplement contains a form of quercetin that has been integrated into a *phytosome*. A phytosome is a phospholipid sphere that encases a botanical compound, aiding in its absorption and making it more bioavailable.

This plant-derived delivery system makes quercetin absorption easier: our Bio-Quercetin formula is up to 50 times more bioavailable than standard quercetin! So get the most out of your quercetin supplement. Give Bio-Quercetin a try today!

### One vegetarian capsule contains:

Bio-Quercetin phytosome ..... 29 mg  
(providing 10 mg quercetin [from Japanese sophora concentrate (flower bud)], phosphatidylcholine complex [from sunflower])  
Other ingredients: microcrystalline cellulose, vegetable cellulose (capsule), vegetable stearate, silica.

### Dosage and use:

- Take one (1) capsule daily, with or without food, or as recommended by a healthcare practitioner.
