

Uric Acid Control

Supports Healthy Uric Acid Levels

Item #01921 • 60 vegetarian capsules

The buildup of high concentrations of uric acid can cause sudden stiffness, swelling, and discomfort, in addition to serious joint and tissue problems. Fortunately, our new Uric Acid Control formula contains Ayuric™, a standardized, tannin-rich extract derived from the edible fruit of the *Terminalia bellerica* tree that helps maintain healthy uric acid levels already within normal range.¹

This patent-pending, standardized extract from *Terminalia bellerica* supports healthy expression of two *critical enzymes* involved in uric acid metabolism: *Xanthine oxidase* and *inducible nitric oxide synthase* (iNOS). The standardized name for the *Terminalia bellerica* extract is **Ayuric™**.

Ayuric™ is a trademark of Natreon, Inc. with patents pending.
